MilPAC SRHD

The MilPAC SRHD (short for slim removable hard drives) is a portable system specifically designed for portability with high storage capabilities. Rugged aluminum and composite construction provides survivability in deployed environments 24/7 and the ruggedness to withstand transport handling on wheeled and tracked land vehicles, fixed and rotary winged air vehicles.

4x 4 removable storage drives allows this unit to have up to 80 TB of storage. The removable drive cages also allow for easy transfer, upgrade, and maintenance.

Semi Rugged Construction

The MilPAC SRHD is manufactured specifically for use in military, aerospace, and government applications. All our military products have been designed to meet to MIL STD 810G, 9103, and 461G. The heavy duty metal and rubber bumper corners allow it to sustain bumps and impacted blows. It simply can function in the hardest conditions.

Removable Hard Drives

As the name implies, the slim removable hard drives (SRHD) are key in this unit. It comes with 4x 4 removable storage drives, allowing this unit to have up to a massive 80 TB of storage.
