

NotePAC Pro

Compact, rugged portable system with attachable displays and an optional battery. Configured with the latest Intel® Xeon® processor

Unique Form Factor

The NotePAC Pro keeps the powerful performance and integrity of our portable computers while adopting a unique and different design. It utilizes a more notebook-style form factor for a very compact yet versatile design.

Compact Yet Attachable Displays

Because of its design, you can easily attach 2 additional displays for a total of 3 displays. However, unlike most systems with triple displays, the NotePAC Pro manages to do this while remaining compact.
