

# NotePAC

Compact, rugged portable system with attachable displays and an optional battery. Configurable with the latest Intel® Core™ processor.

## **Unique Form Factor**

The NotePAC keeps the powerful performance and integrity of our portable computers while adopting a unique and different design. It utilizes a more notebook-style form factor for a very compact yet versatile design.

## **Compact Triple Displays**

Unlike some of our other triple display units like the MegaPAC L3, the NotePAC manages to remain compact. Because of its design, it sacrifices a bit of power to maintain its compact nature.
