

# PMK

Notebook style portable KVM (Keyboard Video Mouse) system

## **Remotely Control Computers**

Sometimes, there is no room for a server or you want to put all your computers in a safe place. Set your PMK at a convenient and suitable control field over an already existing network construction. With this unit, you can remotely control systems up to 500 feet away.

## **Access Up To 4 Computers**

The PMK enables users access up to four computers, servers, or KVM switches at the same time. Two connect with the traditional KVM cables and two connect with the help of the CAT 5 transmitter up to 500 feet away with superior auto-adjust RGB gain/delay control capability.

# Technical Specifications
